Made from pyrethrin, from the pyrethrum daisy, and canola oil, **eco-pyrethrum PLUS Dual Action Insecticide Ready To Use** effectively controls insect pests and is suitable for use around the family garden. Added seaweed boosts plant growth. Controls aphids, thrips, caterpillars, white fly, cabbage moths, leafhoppers, two-spotted mite, mealybug, citrus leafminer, scale, bronze orange bug, ants, flies and earwigs in indoor and outdoor plants. *Approved for use in organic gardens*

HOW TO USE

SHAKE WELL BEFORE USING

DO NOT use when shade temperatures are near 30°C or higher, or when soil is dry and plants are suffering from moisture stress. This product works by contact action so coverage under foliage is essential. Dead scale may remain on the plant for a few weeks after spraying.

PLANTS

Tomatoes and vegetables, including brassicas (e.g. cabbage, broccoli, Brussels sprouts), cucurbits (e.g. cucumber, pumpkin) and leafy vegetables, fruit trees, ornamentals, indoor plants and citrus.

PESTS CONTROLLED

Aphids, thrips, caterpillars (including cabbage white butterfly & cabbage moth), whitefly, ants, flies, earwigs, leafhopper, two-spotted mite, scale, mealybug, sooty mould

HOW TO APPLY

Spray lightly, just to the point of run off, including undersides of foliage, as soon as insect pests appear. Repeat weekly if required.

Citrus

Citrus leaf miner, aphids, scale, ants, sooty mould, bronze orange bug

For leafminer control, begin applying when the new flush of growth is about 4cm long. For bronze orange bug control, begin spraying from early spring. Spray thoroughly every 5 – 14 days, including the undersides of foliage. Do not apply more than 8 times per season.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED DO NOT PICK EDIBLE PLANTS FOR 1 DAY AFTER SPRAYING

CAUTION: DO NOT handle plants and/or their fruit until the spray has dried. DO NOT use on delicate plants such as ferns and African Violets or very soft young foliage. Avoid spraying flower petals directly as marking may occur. DO NOT spray directly on humans, pets, exposed food, food preparation areas or food utensils. Cover fish tanks before using. DO NOT allow chemical containers or spray to get into drains, sewers, streams or ponds.

PLANT SAFETY: eco-pyrethrum PLUS Dual Action Insecticide Ready To Use has been tested on a range of different plants and safety has been demonstrated when used as directed. Since the susceptibility of different plant varieties can vary it is recommended to test the product on a small number of plants first in order to assess the level of plant safety.

STORAGE & DISPOSAL: Store in the closed original container in a cool dry place out of reach of children and pets. Do not store in direct sunlight. Dispose of empty container by wrapping in paper, placing in a plastic bag and putting in garbage.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. **Phone Australia 131 126, New Zealand 0800 764 766.**
